## **Suggested Packing List - Laos**

We recommend that you check the weather forecast prior to your departure so that you can pack accordingly.

Laos has a sub-tropical climate in the centre and south, with a more temperate climate in the mountainous north. Laos's weather is relatively straight-forward; with a wet season, a cool dry season and a hot dry season. The cool dry season, from **November to February** has mild temperatures and you will need a pullover or jacket in mountainous areas like Luang Prabang, Phonsavan, Saravane and Houeixay. **March and April** is the hot dry season, being the hottest time of the year as temperatures start getting warmer leading up to the wet season, which runs from **May through to October.** 

Consider your packing carefully. You will need to bring clothing suitable for sun exposure and mild temperatures, as well as layers of warmer clothes are advised for cooler evenings. Generally, casual clothes are recommended for your holiday. Loose fitting, lightweight cotton materials are the most comfortable for humid weather. The dress code throughout the tour is casual however, it is important that all passengers dress conservatively. Smart casual clothes are suitable for evening banquets and shows, but are not compulsory.

Refer to your <u>Travel Guide – Indochina with Thailand</u> about how to dress appropriately for this culture and advice about choosing your luggage. Please note, due to restrictions on your internal flights, your luggage allowance is 20kg for checked luggage and 5kg for hand luggage.
