Usually, the boats depart at 9am from the dock located a 1-hour drive from your hotel. However, when the river level is low, they depart from further downstream which would mean a longer drive and an earlier check-out from your hotel. Disembarking from the cruise, your Local Guide will walk with you to your hotel, approximately a 30-minute walk from the river. There are electric carts offered by private vendors which can be organised at your own cost. In Yangshuo, enjoy some time strolling along West Street and visit the local markets.

Along the canal, there are many of the original storehouses, which have been converted into cafes, boutiques, souvenir shops and museums.

Hiroshima – An atomic bomb was dropped over Hiroshima on 6th August 1945, and the city's name became famous worldwide for this unenviable distinction. You'll walk up part of the mountain; there are some steep steps and the incline allows a steady-paced walk. Next, head to Nishiki Market, also known as 'Kyoto's Kitchen' with its lively open-air market specialising in all things food! Also visit a restored wooden Japanese townhouse to experience the rituals of a tea ceremony and try your hand at the traditional art of origami.

Destination Information

Tokyo – One of the world's most cutting-edge capital cities, Tokyo is a city of contrasts, famous for its neon-lit landscape, towering skyscrapers, peaceful shrines and lovely gardens. Although long the political and cultural centre of Japan, Tokyo became the official capital when the Meiji Emperor moved it there in 1867.

Tokyo is the ultimate 24-hour city, but look behind its frantic, high-tech frontage and you'll find plenty of tranquil backstreets and old temples to explore. Head to the 2nd observatory of the Tokyo Skytree for panoramic views over the city before taking a wander through the district of Asakusa, stopping at Sensoji Temple. Insurance

We strongly recommend that you take out a policy as soon as you pay your deposit. Wendy Wu Tours cannot in any way be made liable for any additional cost incurred by the customer on any tour due to the customer not having adequate travel insurance.

We also encourage all customers to take a copy of their travel insurance documents (especially relevant international contact numbers) with them while on tour. We advise that you check the inclusions and procedures for lodging claims prior to your departure. These documents should be stored separately from the originals.

Eating in China & Japan

We welcome people on our tours with a wide variety of tastes and as such try to present an array of food to suit everyone in the group. Our schedule of meals is designed so that you can experience the local dishes, their individual flavours as well as the different ways they are prepared and cooked throughout China and Japan. All meals (excluding drinks) are included in our fully inclusive group tours from dinner on the day of the group's arrival until breakfast on the day of departure.

Chinese cuisine is one of the most influential, diverse and flavoursome culinary styles in the world with a legacy stretching back thousands of years. Often, you'll find that the local Chinese style is very different from what you're used to at home. Dishes served in restaurants on our group tours are varied. Some will be vegetable-based with meat mixed in, and a few will be meat-based. Traditionally, Chinese people cook with a lot of vegetables because meat used to be hard to come by. Dishes often come pre-seasoned with soy sauce or other sauces. Our restaurants are well aware of the western palate – there are plenty of non-spiced options. Most meals are served with plain rice on the side which is intended as an accompaniment to your meal. Unlike the western world, Chinese people do not normally pre-heat their plates and food can be presented at a variety of temperatures, which is a typical Chinese way of doing things.

Japanese cuisine is delicious, colourful and healthy. Meals are usually served with a bowl of rice and a bowl of miso soup and consist usually of fish, pickled vegetables and meat. Japan's other main staple is noodles, most famous being Udon and Soba. Food is an important element of Japanese culture. It is a time for families and friends to come together and much of family life revolves around the dinner table. Most food is eaten with chopsticks, so best get practicing as cutlery is not always available at restaurants.

All beverages will be at your own expense and are readily available.

On some days where lots of sights are covered, dinner times may be early and your tour group may head directly to the restaurant after sightseeing without stopping at your hotel to freshen up.

Those with dietary requirements will be well catered for - just make sure to inform your booking agent of any specific requirements well in advance of your trip. Please be aware; however, that restaurants may not always be able to accommodate these. Gluten-free food may not be as readily available as in Australia.

All the restaurants we visit will be researched and inspected regularly to ensure that they follow the strictest health, cleanliness, and safety guidelines. All waiting staff will wear face masks and gloves and self-service buffets will be avoided in favour of à la carte dining, waiter-served meals, or waiter-assisted buffets. Hand sanitiser will be provided to the group before and after every food and beverage service.

Please read your travel guide, which you will receive with your final documents for more information about eating in China and Japan. We recommend that when it comes to Japanese and Chinese food, you stay open minded and try to be adventurous!

Accommodation

Your accommodation is selected for convenience of location, comfort or character, and can range from a business hotel in one city to a family run guesthouse in a smaller town. In more remote areas, accommodation may be of a lower standard and may not have all western amenities. Hotels are generally rated as local three to four-star standard, but please note that there is no international classification system for hotels and differences in facilities and quality do exist between Australia and China and Japan. All group tour hotels have private western bathroom facilities, air conditioning, TV and a telephone. Please note, double bed requests can be made at time of booking but cannot be guaranteed.

Please note that in Japan hotel rooms and bathrooms are renowned for being small. Standard single rooms are usually smaller than a standard double or twin room, contain one small double bed (or one single bed), and are designed for one person to use. In China, plumbing and electricity supplies can be erratic and quite often the power in hotel rooms is turned off while guests are out of the room.

If you experience any difficulty, please speak to your National Escort/Local Guide. Rest assured that all hotels used by Wendy Wu Tours are regularly inspected by our staff and our partners to ensure that standards meet your needs.

Porterage

Please be aware that porterage is not included in Japan or China. You will therefore need to be able to handle your own luggage within the hotel and when using transportation like trains and coaches.

Transport

Coaches: Coaches with air conditioning are used on our group tours for city sightseeing, short excursions to the countryside and longer transfers where necessary. Roads in China have generally improved over recent years, but traffic and/or weather conditions may extend driving times. Road construction work usually covers an enormous section of road – not just 1-2 kilometres as you may be used to. For this reason, the timings listed in the itinerary are approximations only. There may be sections of road where the surface is comparatively bumpy, but our drivers will do their utmost to lessen the impact. Roads in Japan are extremely well maintained and are comparatively smooth compared with the rest of Asia.

Air: Internal flights are based on economy class, with reputable airlines. Internal flights during your tour are arranged locally, so you will not be given a ticket until your guide helps you check in.

Bullet trains: On this tour, you will take several high-speed train journeys. Second-class soft seats with air conditioning is used in China. For train journeys in China you must ensure that you pack liquids, aerosols and gels/lotions in your hand luggage as per recent regulations. The National Escort will inform you of specific details prior to boarding. The train companies have implemented a policy which doesn't allow passengers to carry inflammable liquids including aerosols, styling gel, compressed air or insecticides; any explosives, magnetised material, knives, scissors or sharp items (medication is fine). Bag checks are conducted randomly and any of these items may be confiscated before boarding the train (in hand luggage or main luggage).

In Japan, second class reserved seats are booked for our groups on bullet trains; there will be toilet facilities on board. Due to the limited space on bullet trains, a separate luggage transfer service will be arranged for all suitcases. In some cases, you will need to pack a separate overnight bag to carry on the train as your suitcase will not arrive until the following day after a bullet train journey. Your guide will indicate when you will need to prepare for this throughout your tour.

Development in China and Japan

Though parts of China match the West in modernity and technological advances, it's important to remember that China is still a developing country and as such, many aspects of tourism in China don't have the solid infrastructure and safety standards as seen here in Australia.

Japan is a developed country and as such matches the West in modernity and technological advances. Japan is an extremely safe country and takes great responsibility in maintaining high safety standards.

Cultural Difference

Japanese society and culture are built on intricate social etiquette and customs. As foreigners, we are not expected to be knowledgeable about all etiquette, but it will make your time in Japan more enjoyable if you're respectful of local customs. Some examples of scenarios you may encounter include removing your shoes and hats when entering a temple or house (some restaurants as well). You may be supplied with slippers at some places, but please come prepared with plenty of spare socks, and shoes that are easy to take off for the fairly regular occasions when they must be removed. Your National Escort will advise you of some of these other customs at the beginning of your tour.

Public Holidays

If you are travelling within the below Public Holidays, please note that celebrations last for several days and during these times some businesses will be closed and coach, air and train travel may be affected. Tourist attractions will be open but may be crowded.

China: Chinese New Year is 12th February 2021. Golden Week public holidays fall annually between 1st – 7th May and 1st – 7th October.

Japan: Showa Day is on 29th April, Golden Week on 29th April – 5th May 2021, Constitution Memorial Day is on 3rd May 2021 and Emperor's Birthday is on 23rd December every year.

Souvenirs

We want to be able to give you an opportunity to buy souvenirs so we include some stops at museums or exhibitions which demonstrates a craft or product unique to that region with pieces available to buy. We understand that souvenir hunting is not for everyone, so we aim to take you to places, which hold local interest. We trust you will enjoy these opportunities to learn about local arts and crafts and understand their historical and cultural importance.

Group Size

The group size on our Classic Tours is on average 21 passengers, with a maximum group size of 28. You may encounter other Wendy Wu tour groups while you are travelling. On our group tours we operate a seat-and-a-half policy, allowing you to travel in greater comfort.

All our departures are guaranteed to operate with a minimum of 8 travellers booked (unless cancelled due to factors beyond our control). A National Escort will accompany each group of 10 or more. However, at our discretion we may operate departures with a smaller group size as we try to operate advertised departures wherever it is viable to do so.

Tipping Policy

Local tipping is customary in Asia; However, this can often lead to awkwardness in knowing when it is appropriate to tip and how much, as well as ensuring you have a suitable amount of change available at the time. For your convenience, with years of experiences in providing the best customer service, Wendy Wu Tours operates a kitty system on our Group Tours in China, so your National Escort will look after this aspect of your trip for you. It also ensures that the amounts paid are reasonable for you but still fair for the local people. The amount is stated on each Group Tour page will be advised again on your final documentation. Tipping is in RMB and will be collected by your National Escort on arrival and distributed throughout the tour on your behalf. Any additional tipping on any of our tours is welcomed at your discretion. Further guidance for tipping contributions will be outlined in your final documentation.

Although tipping in Japan is not customary, if you feel you have received an excellent service, please feel free to tip your guide at your discretion.

Packing List and Climate

You will find a complete packing list and a helpful climate chart in the 'Suggested Packing List', which will be included in the pre-departure information link sent within your deposit documentation. Seasonal weather patterns can be quite unpredictable. Up to the minute information on worldwide weather can be found on www.weather.com

Luggage

All travellers are limited to two items of luggage each; a suitcase with a maximum weight of 20kg and one piece of hand luggage with a maximum weight of five kilograms. It is essential that your luggage is lockable. Please note that authorities will only allow bottles onto the aircraft if they have been checked in as main baggage. Bottles in hand luggage may be confiscated.

Exchanging Cash

It is highly recommended that extra care and attention is paid when exchanging money when travelling to cities outside of Tokyo. US Dollars and Australian Dollars can be exchanged at Narita Airport and in some hotels, provided the Australian currency is new and undamaged. We suggest exchanging your money before travelling to smaller towns, as exchange facilities can be very limited. Your National Escort will remind you to do this before departure.

Personal Expenses & Optional Tours

Personal Expense - You will need to take some extra money to cover drinks, laundry and souvenirs, plus any additional sightseeing that may be offered to you. Based on the advice of previous customers an approximate amount of AU\$250 per person, per week should be sufficient; however, for those that cannot resist a bargain or may wish to participate in all of the optional excursions, consider allocating a higher amount.

Optional Tours - May be offered in each city you visit during your tour. These are not included in the standard itinerary and will only be available if time permits and if seats are available. In your Final Documentation an Optional Excursion Sheet will be included outlining the activities available in each city and local cost associated. Please ensure you have additional funds available if you feel you may wish to participate in any extra activities. Each option will be arranged locally by your National Escort/Local Guide, participation and tipping for optional excursions is completely at your discretion.

Climbing Steps

Sightseeing at nearly all of the palaces, fortresses and some temples involves climbing quite a number of steps. These palaces were built to provide defence against potential invaders so nearly all of them stand on top of a hill, while the interiors have layers of narrow hallways and steps to slow down the advance of enemies once they were inside. The steps tend to be quite large, not level and sometimes without handrails. Buddhist

temples or pagodas also tend to be built at an elevation, as this is the most auspicious position according to ancient beliefs. This means you sometimes need to walk from the bus park to the entrance, and/or need to climb some steps inside.

People with knee or hip injuries who have poor balance or are otherwise unable to complete these activities independently should consider the suitability of this itinerary carefully.
