River Transport: In the Amazon region, boats and ferries are essential for transportation, connecting remote communities and offering a unique way to experience the rainforest.

Access Roads: The Pantanal is primarily accessed by road, with unpaved highways connecting major towns and lodges. Common routes include the Transpantaneira Highway, which runs through the heart of the Pantanal, offering stunning views of wildlife and landscapes.

Planes: Internal flights are based on economy class, with reputable airlines. Within South America flights are often changed multiple times before departure, both timings and flight numbers. The utmost care will be taken to ensure that your final documents will have the latest information, however your local guide will confirm this in destination. Boarding passes can be collected directly at the airport. The flights booked as part of your itinerary will always reflect the best timings to suit the touring itinerary, with direct flights wherever possible, however due to limited schedules some flights may require an early departure or late arrival.

APPROPRIATE DRESS:

When traveling in Brazil, particularly in the Amazon and Pantanal regions, dressing appropriately is essential for comfort and protection against the elements. Here's a guide on what to wear in these areas:

General Tips for Brazil

Lightweight Fabrics: Choose breathable, lightweight fabrics that wick moisture, as Brazil can be hot and humid, especially in the Amazon. **Layers:** Even in tropical regions, temperatures can drop at night, so consider bringing a light sweater or jacket.

Appropriate Dress for the Amazon

Clothing:

Lightweight, Long-Sleeve Shirts: Protect your skin from the sun and insects. Light-coloured fabrics can help keep you cool.

Quick-Dry Pants or Shorts: Opt for quick-drying materials to stay comfortable in humid conditions.

Rain Jacket or Poncho: The Amazon experiences frequent rain, so a waterproof layer is essential.

Footwear:

Waterproof Hiking Boots or Shoes: Durable, waterproof footwear is important for navigating wet and muddy trails.

Sandals: Comfortable sandals can be useful for relaxing at the lodge but may not be suitable for all activities.

Accessories:

Insect Repellent: Use products with DEET or natural alternatives to protect against mosquitoes and other insects.

Sun Protection: A wide-brimmed hat, sunglasses, and sunscreen are vital for sun protection.

Bandana or Buff: Useful for protecting your neck from the sun or keeping sweat at bay.

Appropriate Dress for the Pantanal

Clothing:

Lightweight, Long-Sleeve Shirts: Similar to the Amazon, long sleeves protect against sun and

insects. **Cargo Pants:** Comfortable, lightweight cargo pants with pockets are practical for hiking and wildlife watching.

Quick-Dry Fabrics: Materials that dry quickly are ideal, especially if you encounter wet conditions.

Footwear:

Sturdy Hiking Boots: Good-quality hiking boots are essential for uneven terrain and long walks.

Waterproof Shoes: Consider waterproof shoes or boots, especially during the wet season when areas can be flooded.

Accessories:

Insect Repellent: As in the Amazon, insect repellent is necessary for protection against mosquitoes.

Sun Protection: Bring a hat, sunglasses, and sunscreen to shield against the sun during outdoor activities.

Lightweight Backpack: A small backpack is useful for carrying essentials during day trips.

Additional Considerations

Colour Choices: Neutral or earthy tones are often recommended for wildlife viewing, as bright colours can scare away animals.

Cultural Sensitivity: While beachwear is acceptable in coastal areas, it's advisable to dress modestly when visiting cities, towns, or rural communities.

Comfort is Key: Ensure that all clothing is comfortable for extended wear, as you'll likely be participating in various activities throughout the day.

By dressing appropriately for the climate and environment, you'll enhance your comfort and enjoyment while exploring the beautiful regions of Brazil, the Amazon, and the Pantanal.

ACTIVITIES:

MANAUS**TOUR OF THE 'MEETING WATERS'**

(only available for guests with pick-up - hotels or airport - until 08:30am). Departs to ECOPARK on board a regional double deck boat. The boat goes down the Negro River, navigating along the shore of the City of Manaus, allowing passengers to view the Amazonas Theatre, the Port of Manaus, the Customs, and the interesting aspects of the local life - the stilt houses, for instance. Arrival at "The Meeting of the Waters" by 11h30am. It's a spectacular merge of Negro and Solimões Rivers. From this point on, both rivers form the famous Amazon River that runs all the way to the Atlantic Ocean. The waters of the two rivers run together for about 12 km, side by side, without mixing. The phenomenon happens due to differences in temperature, density, and speed of the waters of the rivers. Optional lunch will be served in a typical restaurant (rustic yet clean restaurant with a buffet style, international and regional dishes). Duration: 8 to 9 hours.

NATURE HIKE

Biodiversity is the main characteristic of ECOPARK. It includes uncatalogued species in virgin rainforests, natural savannahs, and creeks. Several streams of clear water also run through the local. During the tour, the guide will lead, educating about the local flora & fauna, how and where to find edible fruits and potable water, first aid, how to the way in the forest, and much more. Duration: 1 to 3 hours (depending on the health conditions of participants).

MONKEY FOREST

The facilities for the rehabilitation and reintroduction of wild animals in their habitat (known as the Monkey Forest), was created in 1991 with the intention of receiving animals that have been confiscated from illegal commerce. This is a joint project with the Municipal Secretary of Environment and Sustainability. In this centre, the animals are initially put into quarantine to be evaluated and taken care of by a team of veterinarians and biologists. In partnership with the FFV (Live Forest Foundation), a nonprofit institution overseen by Amazon Ecopark Lodge, a unique feeding system has been developed. Twice a day (10:30 & 15:30), the animals receive supplements of their natural diet, ensuring that they are being fed the necessary nutrients. The Monkey Forest is open to guests at feeding times, always accompanied by a credentialed professional, permitting guests to film and photograph these animals in a natural and safe environment. Eventually, the monkeys may not appear; there are factors in nature (breeding season, heavy rain) that can interfere with the presence of monkeys. Duration: 40 minutes to 1 hour. **IMPORTANT!** Twice a year, the monkeys move away for 2-3 weeks to travel through the forest and demarcate their land. During this period, it will not be possible to see the monkeys, only the ones in quarantine.

VISIT THE CABOCLOS HOUSE

Depart the lodge on a boat or motorized canoe, accompanied by a Bilingual guide to learn about the traditions and customs of local Amazonians ("natives"). Duration: 40 minutes to 1 hour

FISHING TOUR

Depart the lodge in paddle or motorized canoes, accompanied by a Bilingual guide. (Fishing of piranhas and other species, depending on the season). Note: It is non-professional fishing. Duration: 40 minutes to 1 hour

NIGHT TOUR IN CANOE

Depart the lodge in paddle or motorized canoes to appreciate the sounds of the jungle at night, with the possibility to spot small alligators (or other nightly creatures). Alligators are spotted because their eyes shine like small red lights. Once the alligator is spotted by the guide's spotlight, he will try to catch a small alligator with his own hands and bring it on to the canoe, and a brief explanation of their habitat follows. The alligator will then be safely released back to the river. (No harm is done to any of the animals). Duration: about 1 hour. Note: during "high water level" season (from April to August) and on full moon evenings, it might be difficult to find alligators.

PANTANAL**HORSE RIDING TOUR**

All tours take place amongst the region's unique landscapes, but the horses are one of Aguapé Lodge's main attractions and the best way to explore the swamp. Riding through the open fields, marshes, capões, ridges, streams, and bays, we will encounter a rich variety of wildlife and lush vegetation, typical of this well-preserved area. The horses are very calm so even those who have never ridden can do this tour. Several routes of different lengths are available, which can be done in both the wet and dry seasons, always with experienced local guides who will share their expert knowledge of the region. The ride lasts 1h30 to 03 hours, depending on the chosen route, starting and finishing at the lodge. There will be a stop along the way to rest and a drink. Before setting off on the horseback ride, there will be a full explanation of the basic rules of horse riding, including how to assemble and use the bridle and stirrup.

CATTLE HERDING

(AM or PM) accompanies the cowboys on their daily work schedule with the cattle, herding them between different parts of the farm (cattle drive), taking care of the calves, or watching the cowboys working in the enclosure. This is an excellent opportunity to learn a little about the culture and habits of some of the Pantanal locals. This tour is subject to availability and depends on the work the cowboys will carry out on the day.

HORSE CARRIAGE

A pleasant tour that takes us through the farm's fields; a great option for anyone who isn't able, or doesn't want, to do the horseback tour. You can do the same route in the carriage as the horseback tour, exploring all the different tracks even during the rainy season. Along with the extra comfort the carriage provides, its peace and quiet are added bonuses to this kind of tour. The tour lasts 1h30 to 3 hours, depending on the route.

BOAT TOUR

This is by far the best way to get to know the Aquidauana River and the beauty and vitality of the surrounding gallery forest. This is the beautiful natural habitat of the mammals and reptiles that lie on river banks, and we can also enjoy the simple songs of the many birds in the area. The tour lasts two and a half hours, and you must always wear a lifejacket (provided by the lodge). It takes place in a motorboat with space for six people. Swimming or fishing in the Aquidauana River is not permitted during this tour.

TREKKING

The trekking tour takes us through dense vegetation, open fields, and gallery forests, allowing you to get close to the region's nature and learn about the role of the plants and animals in the Pantanal ecosystem. This is also a chance to spot some of the animals from closer up, and several routes are available between 1h30 and 04h00. In the rainy season, some paths sometimes get flooded, so clothing and footwear may get wet. Photographic safari in an open-top vehicle the photo safari tour gives you the opportunity to cover much more of the farm's grounds, traveling through many different landscapes like cerrado (semi-arid savannah), open grasslands, "vazantes" (low-lying areas that are seasonally flooded), "brejos" (swamps) and permanently flooded bays. This is the perfect tour to see the Pantanal's wildlife. It lasts between two and a half and three hours and can also be combined with the nocturnal animal spotlight tour, depending on the time of the sunset.

NOCTURNAL ANIMAL SPOTLIGHT

Done in a 4X4 vehicle or a boat (depending on the season), this tour takes you to spot the region's nocturnal animals such as anteaters, foxes, capybaras and caimans. You will hear the sounds of frogs and insects at night and enjoy the beautiful night sky of the Pantanal. The tour lasts about one hour.

PIRANHA FISHING

Piranha fishing takes place in one of Aquidauana River's many bays, not far from the lodge. Piranha is mainly used to prepare one of the region's most traditional dishes: piranha soup. Besides fishing, this experience is also a good way to see the caimans who sit watching the people fishing so they can try to steal their piranhas. On this tour, it is very important to always follow the guide's instructions because even after they have been taken from the water, the piranha can still bite. All the fish will be taken off the lines by the guide. The length of this tour depends on who is taking part and how much they enjoy the activity.

TIPPING POLICY:

Tipping while on holiday is common in most parts of the world and South America is no exception. We will provide suggested tipping amounts with your final documents for your convenience, however tipping is entirely at your own discretion.
